03

FULL MOTION SIMULATOR

Take your racing experience to the next level! 3D visuals from virtual reality will fully immerse you in the cockpit of a real high performance race car. Couple this with up to 1.8G of force from a full motion racing platform and you have the perfect combination to make you believe you're really racing.

The full motion simulator is compact and highly portable making it possible to move quickly and efficiently to a wide variety of locations that may be unreachable by other motion simulator systems.

If you want to really blow your guest's minds then this is the closest you'll get to actually driving a race car without actually doing it! This setup comes complete with motion cockpit and triple monitor setup, take it a step further and we can even hook up Virtual Reality!

- ▶ One available
- ▶ Fully equipped
- ▶ Latest Racing peripherals, included are:

- ✓ 1 x 43" LED TV on stand.
- ✓ Force feedback steering wheels.
- ✓ Race pedals and gear shifter
- ✓ Race Cockpit.
- ✓ PC
- ✓ Flooring
- ✓ LED Lighting

- ▶ G-Force Dynamic Racing Cockpit Motion System

- ✓ 4 independent actuator system (3DOF).
- ✓ Integrated actuator controllers.
- ✓ Heave, roll, pitch.
- ✓ Acceleration/cornering/flick/bump/impact, precise perception.

Total: R9950.00

We will beat any quote, Guaranteed!

04 STANDARD SYSTEMS

Our Driving Simulators offer an exciting way of attracting customers to Exhibition Stands, actively engaging potential clients during product launches and promotional events. F1, Rally, Touring Car, Trucks and Buggies are available to complement and highlight manufacturer's products during car showroom openings and vehicle launches, these units are standard and doesn't come with all the bells and whistles like our other products but make no mistake, they sure do pack a punch and are highly interactive and entertaining!

- ▶ Minimum of 2 required
- ▶ Fully equipped
- ▶ Latest Racing peripherals, included are:
